

Local Intelligence.

The Sunfish Tragedy.

COMMITMENT OF SWAYNE AND MORRISON.

ARREST OF FOREMAN—THE MYSTERY DEEPENS.

Two young men named Thomas Morrison and William Swayne were arrested last week and underwent an examination before Esquire Morrill for the murder of Miss Josephine Allen. These men are plasterers by trade and are from Baltimore; but more recently from the chain gang at Wheeling.

We had prepared ourselves with pretty full reports of the evidence, but it amounts to so little that we publish only a brief summary of it.

Two men were seen about a mile or a mile and a half from Sunfish going in the direction of the place where the body was found about 4 o'clock of the day when the foul deed was committed. The witnesses four or five in number, state that they believe Swayne and Morrison to be the persons they saw. Foreman swears that he saw two men standing under a chestnut tree a few hundred yards from where the body was found.

As one offset to this, one witness swears that he saw the men passing up the run, was not far from them, that she would have known Morrison if he had been one of them. In addition to this, both the accused can account for every half hour of the day, when the deed was done, and prove that they were at other places during the whole day, with the exception of a very little time—too little, it is generally believed, for them to have committed the act.

They have, however, been committed for trial and before our paper goes to press will probably be in jail. But the evidence, though possibly sufficient to justify commitment, is very far from being sufficient to convict them.

We learn that Foreman, on or near whose place the body was found, has been arrested, though not yet taken into custody. The evidence against him, we are informed is founded chiefly on the testimony of a girl who is living with him. She saw him coming out of the field in which the body was found, which conflicts with his testimony. Their testimony disagreed in several other particulars. It was further proved that he was suspected of improper intimacy (not criminal we believe) with the deceased for some time previous.

Taking the examination of the witnesses and all the developments, notwithstanding the violence and energetic efforts of the prosecuting attorney and others, the mystery deepened instead of being solved. The most that can be said for the investigation is that it has excited suspicion. Almost every body in the neighborhood has been examined, and all manner of questions asked that could possibly lead to a trace of the murderers, but nothing important has been elicited.

Unless some new train of circumstances can be developed, some new track discovered, the most foul and villainous murder ever perpetrated in this country must remain a mystery until made known on the Judgment Day.

Clerks Office Removed.
The clerks office has been removed to the room in the north west corner of the court-house, upstairs. The old clerks office will be occupied by the Sheriff.

John W. Harris has been appointed deputy Sheriff under Mr. Morrow. He will make an excellent officer. The appointment could not easily have been bettered.

SHERIFF MORROW, and PROBATE JUDGE JOHN S. WAY have entered upon the duties of their offices, which we have no doubt will be performed very satisfactorily. Mr. Way is a young man for the position, but he is admirably qualified, which is all that is necessary.

Governor Walker and the Rejected Returns.

Northern, North or South, it is denied, we believe, that the basest frauds were perpetrated at the Oxford Precinct, Johnson County, Kansas. The frauds were so glaring and palpable that denial of them was out of the question, and so outrageous also were they, that no one could be found bold enough to publicly defend them. Governor Walker is not censured so far as we can discern, in any quarter for rejecting the returns from that precinct on account of frauds but for want of legal authority to look behind the returns.

The returns were defective in not showing that the judges of election had been sworn to the important discharge of their duties according to law. They also bore on their face other evidences of illegality which Governor Walker sets forth in his proclamation. The objections to the returns were not of form, but of substance. The Governor, notwithstanding those objections, fatal in themselves, did not immediately reject the returns. He had received from citizens of the district protests against the returns being received, on account of gross frauds in making them up. Before rejecting them he thought it his duty to inquire into the truth of the charges made, for the will of the people should never be palmed on account of the negligence of their officials, any more than by their actual frauds. He went with Secretary Stanton to Oxford, and made personal inquiry into the truth of the charges of fraud, and, finding that they existed to the extent and of the grossness stated in the protests filed in his office, he rejected the returns on account of the illegality, not of form, but of substance, appearing on their face. In doing that he wronged no one; on the contrary, he promoted the cause of justice and public morals and there can be no friend of those two great elements of a nation's growth and prosperity that will not applaud the action of Governor Walker in the premises.—*Civ. Engineer.*

Important from Utah.

NEW YORK, Saturday, Nov. 3.

The Nebraska correspondent of the Times, under date October 22, writes:

"News has just reached here from our frontier Mormon settlement, on Roof-fork of the Platte River, near the mouth of the Beaver; that some seceders from the Mormon Church have arrived, bringing the news that a large force of Mormon militia, under Brigham Young and H. C. Kumball, were preparing to leave Salt Lake City, with provisions for a six week's campaign in the mountains, and stop, the passage of the United States troops. The positive destination of the Mormon force was secret; but it was generally supposed that at the pass in the mountains near Bear River Cut-off, or at the Steep Rocks, a stand would be made, with almost a certainty to cut off the entire force sent against them."

Interesting from Kansas.

St. Louis, November 3.—Dates from Lecompton to October 22d, states that Governor Walker has issued another proclamation in relation to the 1200 votes from McGehee county, which are thrown out, for the same reasons that governed his action in relation to the Oxford district in Johnson county. The proclamation states that in neither case has he gone behind the returns, and disclaims all right to do so, but the votes were rejected in consequence of fatal defect in form.

MARRIED.—On the 18th ult., by Rev. John E. Hollister, Mr. RANDOLPH TAYLOR and Miss ELIZABETH BOTTENFIELD, all of Stafford, this county.

—On the 19th ult., by the same, Mr. JOHN W. HARRIS and Miss EMILY BROWN, all of Sumnerfield, Noble county, O.

Good fortune be theirs now and henceforth, say we.

SPECIAL NOTICES.

Dr. Roback's Scandinavian Blood Medicines.

At last, in Sweden, the ingredients of two Remedies that disinfected the blood of every corrupt element, have been found. Dr. Roback has combined them. He offers the result in his Scandinavian Blood Purifier and Blood Pills. They are striking the faculty with amazement, and causing thousands of the sick to rejoice. In cases of indigestion, liver complaint, scrofula, rheumatism, diarrhea, in fact, in all cases of disease, not organic, they cure the patient as certainly as day succeeds darkness. See Advertisement.

MOFFAT'S LIFE PILLS AND PHOSPHOR BITTERS. Females afflicted with nervous complaints should first purify their blood with moderate doses of the Life Medicines then brace up their system by application of cold water to their skin. In all disorders of the bowels, bilious attacks or cholera, these Pills are recommended, day the faculty. Sold by the proprietor, W. B. Moffat, 335 Broadway, New York, and by his Agents.

Holloway's Pills.—We live in an over-civilized world. Every sick man who calls a physician is liable to be experimented upon. If the drug first administered does not answer, another is tried—and that failing, another, and so on. It is not insanity to submit to this hazardous treatment, when there is within the reach of all a remedy that penetrates to the sources of the most dangerous internal complaints, and cures them by destroying the morbid material in the blood, which produces inflammation, pain, debility and decay? That Holloway's Pills thus expiates the sustaining principle of disease, so human being who has investigated the facts can doubt. Bear this in mind dyspeptics, consumptives, and all who suffer from internal derangements.
